

About the Department of Psychology, International Islamic University Malaysia (IIUM)

Background

The Department was established in 1990 to undertake programmes which are innovative and methodologically unique. It provides world-class teaching, practical international experience in the field of psychology and a unique chance to share develop the vision, knowledge, initiative and critical thinking needed to meet professional challenges and civilizational needs.

The Department adheres to the general vision and mission of the University and it aims to provide students with knowledge, interpersonal skills and Islamic values. A unique feather to be found in all the programmes in the Department is the Islamization component. The Department offers specialization in test and measurement at the Master's and PhD levels that are not offered elsewhere in the Peninsula of Malaysia.
